of building control innovation.

Automated Logic
introduces
Supervision, the
interactive, graphical
control interface.

Automated Logic
champions
operational
freedom with its
seamless integration of
native BACnet®
communications.

Another graphic first.
Automated Logic
pioneers graphic
programming to
revolutionize building
control.

ACS operating
system launched.

Another perfect
partnership.
Automated Logic
launches its Joint
Venture Network,
pairing with
authorized dealers
coast to coast.

February 7, 2000: the Next Great Moment.

So where are
innovations in
building control
headed? Toward
the internet,
open standards and
complete operational
freedom. And who's
leading the way?
Automated Logic,
of course! Come
see what we're
up to this time - visit
us at **Booth #2411**
at ASHRAE.
